

Self-Guided – Highland

Flight no4

GIN 1 – Caourunn

A highland gin with juniper & Scottish botanicals. It is vapour distilled so has a lighter style with gentle balance and fresh clean flavours

1. Pick up and smell your gin neat – The “nose” is gentle, pine cone, juniper with a slightly herbaceous hint.
2. Try your sample neat – You will get the heat of the alcohol but then a gentle juniper, warmth and balance to the gin
3. Add 2-3 parts tonic and ice – This will bring the gin to life. It creates a classic dry gin and tonic with hints of orchard fruits, floral, spice and pine.

GIN 2 – Devil’s Staircase

A gin named after the famous rocky trail in Glen Coe. The road through the mountain twists up with overhangs, switch backs and general dangers! This gin follows that theme with bold spice and a touch of the Devil in it.

1. Pick up and smell your gin neat – The “nose” has a big hit of spices and warmth. Hints of cardamom pod, ginger, anise, lime and ginger.
2. Try your sample neat – You will get a hit of dry heat of the alcohol with spices and warmth becoming more pronounced and a citrus element hiding in the gin too.
3. Add 2-3 parts tonic and ice – This will balance with the gin to create a spicy G&T tonic which is familiar to many gin drinks but very bold.

GIN 3 – Rock Rose Original

Located on the top East coast of Scotland a matter of minutes from John O’ Groats Rock Rose is a superb gin with real depth of botanical flavours and slight savoury. If you are ever lucky enough to do the NC500 coastal drive the distillery is on the drive!

1. Pick up and smell your gin neat – The “nose” has a complex herbal and juniper forward hit
2. Try your sample neat – You will get a big hit of complex botanicals with hints of citrus, spice but with a savoury and slightly herbal approach at the fore.
3. Add 2-3 parts tonic and ice – The gin becomes more complex with tonic and the tonic opens it up with hints of orange, herbs, savoury, floral and slight spice.
