

Self-Guided – Island & Coastal Flight no5

GIN 1 – Hills & Harbour

Crafty distillery make some wonderful Galloway gins with local pine, juniper and coastal elements. This gin bridges the gap between the seaside approach and the traditional pine and juniper.

1. Pick up and smell your gin neat – Piney juniper, tropical fruit, grapefruit citrus, and a subtle scent of the shore
2. Try your sample neat – Smooth delivery with vibrant juniper, hints of forest fir, tropical fruit, citrus spice, and tangy sherbet
3. Add 2-3 parts tonic and ice – Amplifies the neat with balance of a classic G&T but with other elements coming into play like citrus hints and coastal notes.

GIN 2 – Tobermoray

Tobermoray are really all things Whisky but have turned their hands to gin and done it well! This gin has a unique malty approach and is very different to most others.

1. Pick up and smell your gin neat – The “nose” has a big hit of malty warmth, alcohol and slight floral spice.
2. Try your sample neat – You will get a hit of warming hug from this gin with a bold heat of the alcohol, touches of bitter orange and peels but also hints of heather and elderflower. It’s complex.
3. Add 2-3 parts tonic and ice – The classic juniper and heat drop back to make a slightly citrus, floral and warming G&T.

GIN 3 – Isle of Barra

Located on the remote Isle of Barra where you can fly in and land on the beach! This gin is all about seaside and coastal flavours.

1. Pick up and smell your gin neat – The “nose” has a big hit of seaside, seaweed and salty beach.
2. Try your sample neat – It’s strong so the boozy element seems big but behind it is all things coastal, seaweed and slight spice, pine and citrus.
3. Add 2-3 parts tonic and ice – The gin becomes even more complex with tonic is it savoury and seaside, refreshing and coastal or savoury? It seems to trigger different responses from all our guests but ultimately it’s a very rewarding coastal led gin.
